

REVISED DRAFT VISION STATEMENT
La Cañada Flintridge General Plan Update 2030
(Revised per input received at GPAC Meeting #3)

Following is the vision statement with the revisions made (as noted above).

In 2030, La Cañada Flintridge is a desirable community that has retained its quiet, safe, small town feeling and semi-rural, predominantly single-family character amid the beauty of its natural open spaces, trails, trees, parks, wildlife, and stunning mountain views. Neighborhoods and homes are well maintained, with landscaping and diverse housing styles that are in scale with their neighborhoods. La Cañada Flintridge remains an equestrian friendly community. The downtown is vibrant, attractive, and modern, and caters to the city's residents with quality shopping and dining establishments, and local serving businesses, within a walkable, pedestrian scale village atmosphere. New housing opportunities for senior citizens and families are provided within mixed-use developments that are close to businesses, health care services, community and recreational facilities, and transit. Friendly, caring, and involved citizens of all ages share a commitment to their community and to each other. Premier schools continue to achieve the highest academic standards in up-to-date facilities, and opportunities exist for teens and pre-teens to be active and involved. The city is run efficiently and maintains positive, effective relationships with neighboring cities and regional and state agencies to address cooperatively and resolve regional issues, such as air quality, traffic, and noise.
