

CITY APPROVED ARBORISTS AND TREE TRIMMERS

City of La Cañada Flintridge Municipal Code

4.26.080 Tree Trimming.

A. All Uses. The trimming of protected trees on any property within the city shall be regulated as follows:

1. Except as otherwise provided, only commercial tree services shall trim **protected trees on single-family residential property** [native oak, sycamore, deodar cedar, Chinese elm or California pepper tree with a trunk measuring twelve (12) inches or more in diameter (as measured at a point four feet from the ground surface at the natural grade)] and **any tree, regardless of species or size, on nonresidential property**. The commercial tree service shall be licensed with the city. In order to obtain city licensing, all persons must first:
 - a. Provide proof of certification with the Western Chapter of the International Society of Arboriculture (ISA); or
 - b. Provide proof of possession of a state contractors license (C6 I/D49 Tree Contractor); or
 - c. Attend city approved tree pruning classes and demonstrate knowledge of pruning techniques by passing a written examination.
2. A property owner may trim or prune a protected tree on his/her property provided that all work is performed solely by the property owner.
3. No more than twenty-five percent (25%) of the live canopy of protected trees may be removed within any one -year period. For roots, it shall not include the removal of more than an estimated twenty-five percent (25%) of the live root mass in any two-year period or cutting of any root with a diameter of three inches or greater. Topping of protected trees is prohibited. All trimming of protected trees shall be completed per the Tree Pruning Guidelines of the ISA. (Ord. 322 §2 (part), 2001)

4.26.030 Tree Removal.

A. Single Family Residential Uses. The removal of trees on properties with single family residential uses shall be regulated as follows:

1. Removal of Trees. No native oak, sycamore, deodar cedar, Chinese elm or California pepper tree with a trunk measuring twelve (12) inches or more in diameter (as measured at a point four feet from the ground surface at the natural grade) shall be removed without a tree removal permit issued by the city. Where a tree trunk is divided below four feet above grade, the diameter of all trunks (as measured four feet from the natural grade) shall be added to determine tree diameter.

B. Uses other than Single Family Residential. The removal of trees on properties where the use is other than single family residential shall be regulated as follows:

1. Removal of Trees. No tree shall be removed without a tree removal permit issued by the City as required in Section 4.26.050 of this chapter, and a landscape plan incorporating all the elements of the tree plan as required in subsection (C) of this section. The landscape plan shall show all existing protected trees and proposed trees, shrubs and ground covers by their type, size and location on the property. This landscape plan requirement may be modified or waived by the city manager or designee.

Please Note:

It is the homeowner's responsibility to verify the current status of any and all licenses or certifications listed.
