

Repair work continues on the Angeles Crest Highway (SR-2)

Approximately 3 miles east of the Angeles Forest Highway. 7/27/10

SR-2 is closed from La Canada Flintridge to Mt. Wilson. Expected to reopen by fall 2010.

The California Department of Transportation (Caltrans) announces that SR-2 from La Canada-Flintridge to Mount Wilson Road will remain closed to the public due to severe damage resulting from heavy rains. **SR-2 remains open from Mt. Wilson Rd. to SR-138.**

At several locations along the highway, the asphalt, the soil under the roadway, and the drainage systems washed away leaving large gaps. Currently, construction crews are reinforcing the soil and building support structures under the highway to rebuild the road, and re-installing drainage systems.

According to the Caltrans damage assessment team there are 25 sites along the highway with varying degrees of damage. Some gaps are as large as 100 feet long and 200 feet deep.
