## About the L.A. County Employer Assistance Grant Fund

On March 4, 2020, California Governor Newsom announced a State of Emergency across California as a result of COVID-19. The Los Angeles County Department of workforce Development, Aging and Community Services (WDACS) received Additional Assistance funding from the State of California Employment Development Department (EDD) to assist our local workers and businesses during the COVID-19 crisis. WDACS will use a portion of the funds to provide grants to qualified businesses within LA County that demonstrate significant economic hardship as a result of COVID-19 in order to help them retain workers and remain in business during these challenging times.
